## [GBK Productions Hosts Emmy Suites at Hollywood Roosevelt Hotel](#)

Leeza Gibbons

Some of the biggest names in Hollywood mingled throughout the presidential suite at the **Hollywood Roosevelt Hotel**, right in the heart of Hollywood, on September 13th and 14th as they were gifted with practical as well as more luxurious gifts by numerous high-end companies.

It's not only celebrities who benefit, however. **GBK** specializes not only in celebrity events, but also in fundraising for charitable organizations with the power to make a huge difference in the world. GBK will donate 20% of its proceeds from this year's Emmy suites to **Clothes Off Our Back, 6 Degrees, The**

**Humane Society** and **the Harbor Foundation**. In addition, each charity will also be given a \$100,000 gift bag to auction off.

**GBK Productions**, founded by **Gavin Keilly**, hosted the gifting suites at the Roosevelt for **Emmy Award** presenters, nominees, invited guests and members of the press, days before the Emmy telecast. After receiving the BizBash award for Best Gift Bag for its 2006 Emmy Gift Suite, GBK continued its exciting tradition, offering celebrities amazing on-site spa and beauty treatments as well as over \$100,000 in gifts.

**Walnut Grove Spring Water** is a newly discovered natural spring water - from South Central Indiana - is harvested in a rural and protected location, making it only 1 of 2 certified natural spring sources in all of Indiana. The natural filtration for this water is created with limestone, sandstone and a unique "sugar sand" as well as gravel formation, all contributing to the completely pure and light taste and feel of the water.

Heart disease and cancer research claim that the healthiest kind of water are hard waters with moderately high total dissolved solids, and walnut grove spring water fits that bill with 270 total dissolved solids. In addition, the moderately high level of Bicarbonate in this water (180) is said to aid in digestion.

Owned by M. Duane Smith and Leslie K. Smith, this is a privately-held company, with the water being bottled and shipped directly from the source. Walnut grove spring water is currently available in 50 fine dining establishments, gourmet retailers and wineries. [www.walnutgrovespring.com](http://www.walnutgrovespring.com).
